

MILLION DOLLAR VOICES

The **Board of Directors of Small Steps in Speech** has an exciting announcement to make. As of March 13, 2017, our foundation has hit an important **MARC** worth celebrating. Small Steps in Speech has granted \$1,000,000 in therapy and treatments to children with speech and language needs across the United States!

We are beyond grateful for our volunteers and donors, without whose support and contributions this would not have been possible. And to *SSG Marc Small*, whose name and memory will never be forgotten; thank you for guiding us in this journey!

As Thomas Campbell once said,
“A hero is someone who has given his or her life to something bigger than oneself”.

Help us continue Marc's legacy to be heroes to children and their families who need our support!

Here's to the next **BIG STEPS** for
SMALL STEPS IN SPEECH!
